

13 December 2022

Dear Mrs [REDACTED]

I refer to your application, received on 9 December 2022 and lodged under section 208 of the *Education (General Provisions) Act 2006*, for Indie-Rose [REDACTED] to be registered for home education.

I advise that Indie-Rose is provisionally registered for home education. The provisional registration commenced on 9 December 2022. This authorises you to home educate Indie-Rose. Provisional registration continues until a decision is made on the application for registration.

You will be advised in writing:

- (a) if any further information or documents are required in connection with the application; and
- (b) when a decision is made on the application.

It is anticipated that the application processing will be completed by 9 March 2023. You should start to implement your child's home education program now.

I would like to take this opportunity to remind you that should Indie-Rose change place of residence you are required under the Act to inform the Home Education Unit in writing. If your child stops receiving home education you are obliged to surrender the provisional registration in writing, advising the name of the school at which your child is enrolled.

Please feel free to contact the Home Education Unit if you would like clarification about the content of this letter or about home education generally.

Yours sincerely

Catherine Tarraran
A/ Assistant Manager
