WHATS IN THE PACK

There is a total of **23x** small flashcards designed for maker spaces/stem bins for you to set up and let your child/ class create using that material

and a total of **29x** larger flashcards to get children creating what the image on the card represents. These flashcards are designed for kids to use whatever materials they want to (paint,craft materials,clay ect) to make thier own versions of each image.

STEM CHALLENGE FLASH CARDS

Our flash cards are unique in a way that promotes and encourages children to be creative and resourceful. They are one of a kind, and each image has been carefully selected for its wholesome like finish.

We have designed these cards to be set up as stem invitations for children to either come

make

- (make what the image is on the flash card you have put in front of them ,being resourceful and using the materials you have available or set out : loose parts, paint, clay, rocks,blocks, natural objects etc ,the child can create their own version of what the flash card is.)

and

CREATE

-(create any design using only the materials on the flash card

TIP: you can set up 2,3, or more flash cards to get them creating using a mix of materials)
